

Agriculture Equipment Service Technician

Greenvalley Equipment

Job Description

Greenvalley Equipment is hiring an Agriculture Equipment Service Technician, in our Altona, Morden, Treherne and Killarney locations, to join our high performing service team in representing John Deere – the premium brand in farm equipment. Our team strives to provide the best solution for our customers needs.

Are you driven, outgoing, a problem solver and a teammate that your co-workers admire?

If you are looking for a career in a customer focused environment with an emphasis on quality, then we are interested in hearing from you!

Main Duties

The Service Technician is responsible for diagnosing and repairing a wide variety of agriculture equipment, consisting of primarily John Deere equipment. This role requires the Technician to be responsible for high efficiency through proper diagnostic/repair, documentation, and effective communication. Duties will consist of both shop environment work with a team of technicians, as well as on site field working directly with customers.

GVE proudly offers an extensive employment package that includes competitive compensation, a substantial and ongoing commitment to training, Blue Cross benefits, and an opportunity to participate in a RSP profit-sharing program.

Most importantly, we have a dedicated and experienced team of leaders and experts who take deep pride in “Helping Farmers Feed a Hungry World.”

Job Duties

- Diagnose and repair various equipment faults, including electrical, hydraulic, powertrain and engine systems by maintaining a working knowledge of current technology.
- Perform general equipment maintenance, PDI and set up new equipment.
- Provide thorough documentation of diagnostics, quotations, and repairs on work orders
- Effective and efficient use of technology
- Clear communication with service management and customers
- Complete work orders and related paperwork properly and timely
- Attend training courses
- Maintains a clean work area and general housekeeping duties
- Work safely with coworkers

Employment requirements

- Red Seal Accreditation in Agricultural Equipment Technician, Heavy Duty Equipment Technician or equivalent certification
- Valid driver's license
- Physical fitness and agility
- Comprehensive tool inventory to complete required tasks
- Be able to work in tighter confined spaces and comfortable working at heights

Compensation

Starting wage of \$30.00 per hour

Position

Full time permanent position – 40 hours per week

NOC 7312 Heavy Duty Equipment Mechanic
