

Crypto Farm Onsite Technical Support

Description

We are a leading crypto mining operation located in St. Leon, Manitoba. Leveraging Manitoba's clean, low-cost hydroelectric power and cool climate, we are committed to operating a highly efficient and sustainable mining facility. Due to expansion, we are seeking multiple motivated and responsible individuals to join our team. we offer:

- A competitive industry salary and performance-based bonuses.
- Comprehensive technical training to develop a deep understanding of the Bitcoin mining industry.
- A full benefits package, including medical insurance.
- Valuable experience at the forefront of the rapidly evolving blockchain technology sector.
- A safe and structured work environment.

Duties

- Perform daily inspections, maintenance, and troubleshooting of mining hardware (ASICs).
- Execute the deployment, decommissioning, configuration, and setup of mining rigs.
- Monitor farm performance metrics, including hash rate, power consumption, temperature, and network connectivity to ensure stable and efficient operation.
- Respond promptly to hardware failures and system alerts, performing component-level repairs (e.g., replacing hash boards, power supplies).
- Conduct basic maintenance and monitoring of site infrastructure, including power, cooling, and
