

# Industrial Mechanic & Mechanic's Helper

## Description

### Summary

We are seeking a multitalented Industrial Mechanic (as well as an Industrial Mechanic's helper) to join the maintenance team at our pre-cast concrete manufacturing plant in Haywood, MB. If you have a knack for troubleshooting and repairing building systems and industrial equipment, we want to hear from you! This full-time position typically operates Monday to Friday, all year round (not seasonal)

## Duties

### Duties & Responsibilities

- Install, maintain, and repair industrial machinery and mechanical systems.
- Perform preventive maintenance, troubleshooting, and repairs on industrial machinery and equipment. This may involve after hours / weekend call outs.
- Inspect and diagnose mechanical issues to minimize downtime.
- Read and interpret blueprints, schematics, and technical drawings.
- Collaborate with production and operations teams to ensure optimal equipment performance.
- Maintain accurate maintenance records and documentation.

## Closing Date

April 27, 2026

## Categories

Trades and Construction

## Employer

Haywood Concrete Products Ltd.

## Location

Rural

## Address

Box 34 Haywood, R0G0W0

## Job Type

Full-time

## Education Level

High School

## Wage
